GCSE RESULTS 2022

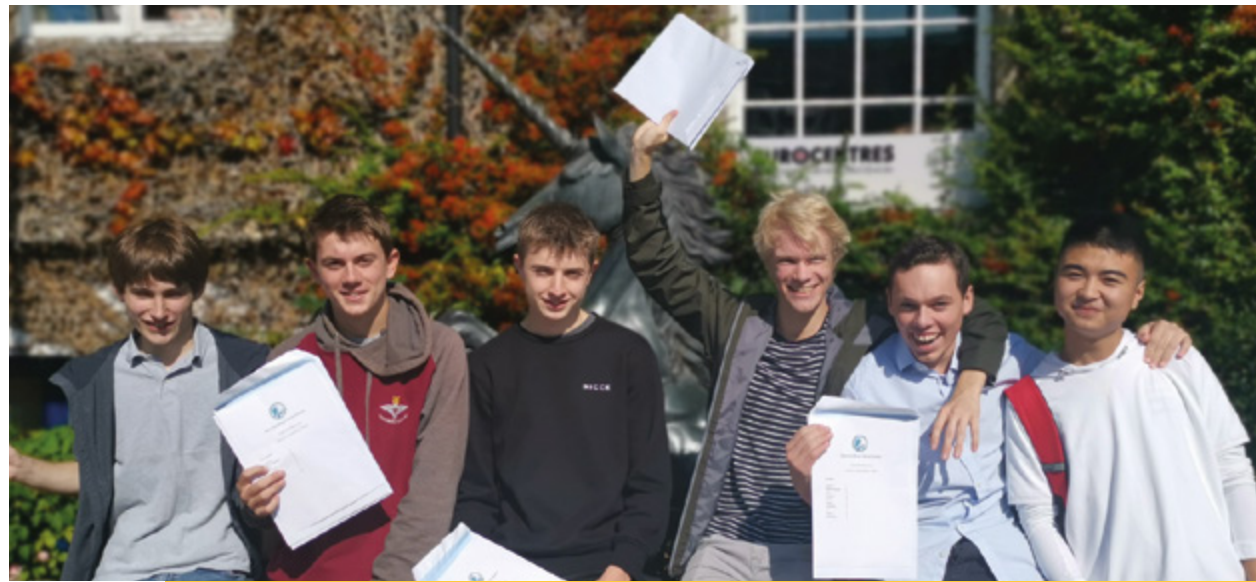

PROOF

Message from the Principal

I am particularly proud of this year's results – especially given all the external factors that this year group have faced. These, as always, are impressive results for a mixed ability school that does not select academically. These results are proof of the school's belief that if you provide outstanding pastoral care then the pupils will thrive and achieve great results."

Sancton Wood delivers outstanding GCSE results year on year and this is a testament to our tailored educational programme, with small class sizes, motivated students and excellent teachers at its core. Lots of this year's cohort have been with us since the Prep school and it's a strength of the school that we therefore know each child in depth when they reach Year 11.

Richard Settle

A cohort of 39 students sat GCSEs and IGCSEs in a range of 21 subjects. Overall, 90% of students achieved five or more GCSEs graded 4-9. 44.5% of these results were in the top 7, 8 and 9 grades (the equivalent of the old A and above).

“ We delight in our students’ achievements every day but these Y11s have done exceedingly well in such trying circumstances. We are proud that during this time they have not only learned and succeeded academically but have developed the lifelong skill of resilience and the true value of support and community.”

Debra King
Head of Senior School

The unique, family-orientated environment that Sancton Wood creates, allows for early identification of students’ strengths and for tailored support to be put in place in any areas individual students find challenging. This is key to their academic success, especially in Cambridge where many other independent schools’ admissions are based on existing academic ability.

“ I know that my GCSEs are a result of my own hard work combined with Sancton Wood’s positive approach and fantastic care of all the students. All our teachers believe in us, allow us to develop our strengths in any direction and have supported us all throughout. The size of our school means we get to know each other and our teachers well and that takes away masses of stress and allows us to concentrate on being successful. I am so pleased with my results and owe thanks to everyone at Sancton Wood”

Maddie
Deputy Head prefect
